ENG Infotech Already Completes Over 3,000 PMS Installations & Migrations in 2023

ENG Infotech, a minority-owned company based in Texas, has already completed over 3,000 installations and migrations of a major hospitality software manufacturer's property management system in just the first 5 months of 2023.

Working with a team of seasoned hotel trainers and installers, ENG has focused its energies by demonstrating its expertise in hospitality software. Mr. Evan Brown, co-founder and CEO, states "I am very proud of the milestone we've reached in record time. But what is more important is that we've enabled a customer to reach and exceed their own goals and targets for moving their hotels onto a next generation platform."

Brown further explains "Looking into the second half of 2023, we are gearing up for several other chainwide migration projects. This is evidence of the high level of care and execution that ENG takes to all its clients."

About ENG Infotech

Since 2009, ENG has been delivering software training and installation to the hospitality industry. They house a team that are comprised of highly skilled, professional, and customer-centric individuals who meticulously develop the solutions that our customers need to streamline operations and grow.
