

## GCSTIMES Introduction :

Founded in 2011, GCSTIMES is a global professional and high-quality supply platform for sustainable development products and services. We're making efforts to providing unexpected solutions to the customers globally, and to making sustainability much easier.

GCSTIMES is headquartered in Zhuhai, China, with subsidiaries in the US, Australia, UAE, Thailand, and Hong Kong, China. Our products and services have reached to 139 countries and regions with over 100,000 hotels around the world.

By providing a series of low-carbon hotel products and solutions, GCSTIMES are helping more and more hotels to realize sustainable development.

In response to the global trend of environmental protection and the government's call for low-carbon development, GCSTIMES is constantly evolving.

At present, we have formed three business curves with the core of eco-friendly smart card, sustainable development series products and digital solutions to help customers achieve the need for low-carbon and environmentally friendly sustainable development and to provide consumers with the ultimate personalized smart experience.

In response to the global trend of environmental protection and the government's call for low-carbon development, Global Times is constantly breakthrough technology and innovative products, by providing environmental hotel supplies, such as eco-friendly smart card, pens, vanity kit etc., to help the hotel industry achieve low-carbon and sustainable development demand. As the advocate, promoter, and pioneer of environmental hotel keycard, we have the patent for eco-friendly wooden electronic label cards and self-developed production equipment, and we also encourage hotels to innovate their room cards by replacing the material used as environmental friendly materials.
