book4time

Book4Time is the leading cloud-based spa, wellness and leisure activity management software for the world's top hotels and resorts, used by more Forbes 5-Star resorts than any other vendor. Book4Time manages the end-to-end guest experience for international hotels, resorts, casinos, golf and private member clubs operating in over 100 countries worldwide and is the preferred solution for some of the world's largest and most prestigious brands.

☁ Cloud-Based with 99.99%+ Uptime

Book4Time is hosted with Amazon Web Services (AWS) and offers the industry's best latency and uptime.

🏢 PMS Interfaces

We specialize in working with hotel & resort spas and have interfaces with Opera (both FIAS and HTNG) Infor, MEWS, Guestline, Shiji and many more. These interfaces allow you to post room charges, guarantee appointments and offer a single guest itinerary.

💳 Credit Card and Gift Card Gateway Interfaces

We integrate with most credit gateways including Freedom Pay, Shift4, Elavon, 3C and Merchant Link, Adyen and property-wide gift card solutions including Givex, IYC, SVS and First Data.

👩‍💼 24/7 Live Phone & Email Support

Book4Time offers the industry's best live phone and email support with 24/7 coverage.
