About HSG -Hospitality Solution Group

Global outlook with a local focus.

Hospitality Solutions Group (HSG) has been providing the best of hospitality and technology solutions for hotels, mixed-use developments, and businesses since 2012.

We aim to provide highly innovative and cost-effective customized solutions, making our products ideal for blending into the look and feel of your business. From banquet furniture and tableware to guest technology, electric car charging facilities and more, our industry-leading specialists can guide you to choose the right products at the right price. Our technology experts ensure you enhance and connect to your visitors and delegates like never before.

We take out the guesswork by identifying the products and determining the best manufacturers, making the whole process hassle-free by taking on procurement duties.

Melbourne serves as our headquarters with offices and warehousing in Dubai to centrally serve our customers. Our years of experience and presence in the hospitality field have given us a wealth of knowledge and contacts, which we leverage to serve our clients best.

We are here to contribute and help all those working towards connecting minds and creating the future

The IPTV, Cast, VOD, Mobile, Digital Signage and Internet platforms are available oncloud and on premise, fully integrated with the hotel's infrastructure and commerce ready.

HSG Shower Sense

“Reduced shower time means saved water, energy and money”

- HSG Shower Sense facilitates changes in shower behavior without compromising bathroom fixtures and decor
- Immediate access to data for historical shower data, benchmark and gamification via QR code scan.
- Easy installation; no need to connect to wifi or call a plumber
- Access to bathroom data to avoid mould buildup

HSG Shower Sense differentiation

- Easy installation - no need for plumber, WiFi or installation of an app.
 - Universal applicable - independent of the water and energy installation
 - Use nudging instead of behavioral design
 - Competitive Pricing
 - Data collection for effective interventions and not just the “here and now”
 - Access to humidity data to reduce risk of mould, improving health and safety standards
 - Third party documented effect
- “Shower duration was found to be 13.56% shorter when a real-time shower clock was visible, the HSG Shower Sense. A 21.27% reduction was the average when this smart technology was combined with pro-environmental behavior statements, e.g. via stickers on the shower wall”

Source; Showering smartly in tourism accommodations

HSG Leak Sense

“Avoid leaky toilets”

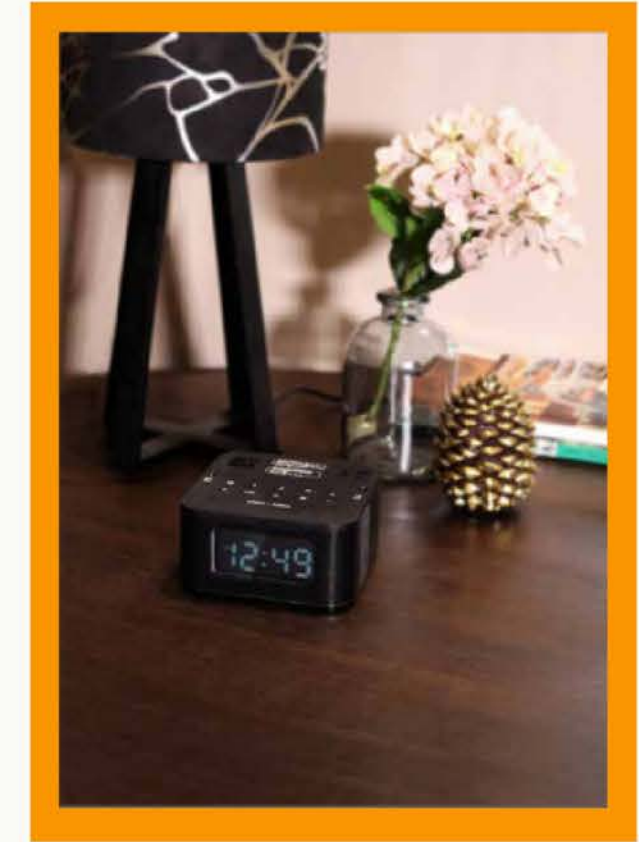

- Extremely easy to install, simply clamp the unit onto the toilet water inlet with a strip, and you are good to go
- The HSG Leak Sensor as a stand-alone version can sound an alarm when it detects a water leak
- The HSG Leak Sensors as connected version notify the building manager of a water leak and provide data on toilet usage

HSG Leak Sensor differentiation

- Ease of installation - no need to contact a plumber
- Installed at individual toilet allowing easy identification of leak and usage
- Data collection for effective optimization of preventive maintenance and cleaning schedules
- Insight on when to flush toilets on idle hotels rooms
- Identify leaking toilets on idle hotels rooms
- Notification system and heat map to come in Q4
- Competitive Pricing
- Reduce overall water consumption.
- One reduced toilet flush equal 6 liter saved water.
- Contribute to Scandic Sustainability Goals on water with 3,75 % - 2020 target less then 160 liters per hotel night.
- Sustainable guest behavior
- Scandic was the first hotel chain to introduce the towel principle
- “Scandic could be the first hotel chain to introduce sustainable toilet use, avoiding toilet flushing of tissues, diapers, and cotton swabs, leading to reduce water consumption to benefit the environment”

Bedside Clocks

Let us know the type and desired ports and let us do the rest.

High Fidelity Speakers

Small but Powerful!

Audiotecture line of speakers by HSG are compact powerhouses of audio excellence, handmade in Australia.

At the Forefront of Speaker Efficiency, the high power satellite+subwoofer systems are designed to cover large areas thanks to their ultra wide sound dispersion.

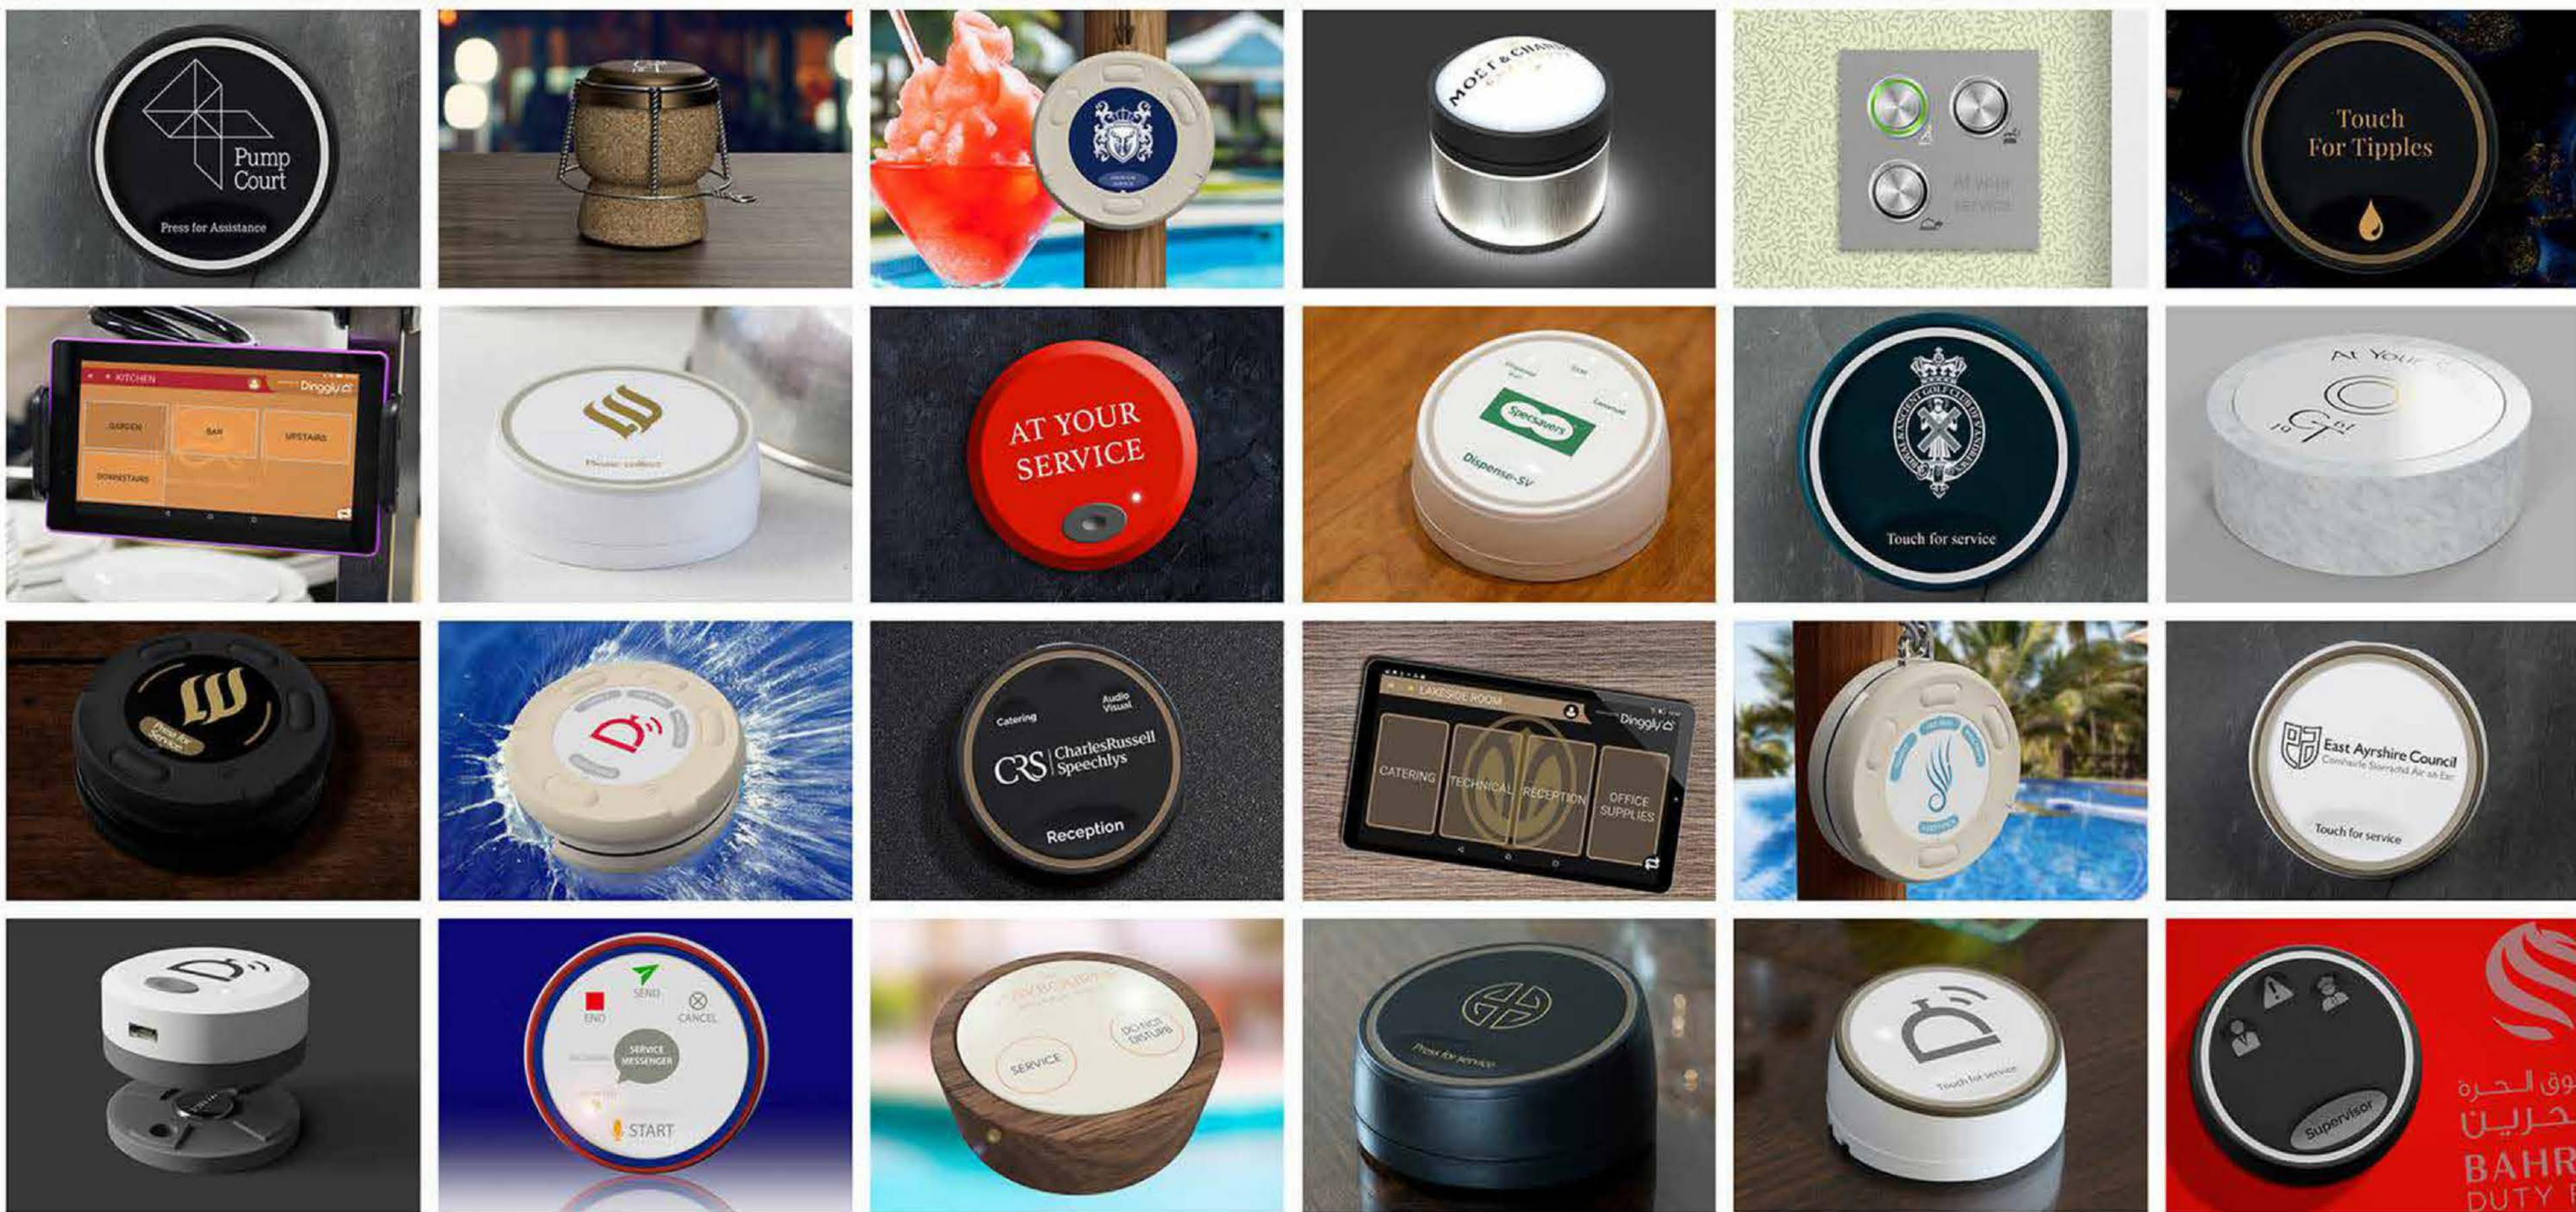

Our architecturally minded Audio Solutions are compact and elegantly designed to fit in with both modern and heritage architecture, with the power handling to suit commercial usage.

Each product is crafted from the finest FSC-certified birch available. Our proprietary timber finishing, assembly and testing procedures take up to 30 days.

The result? A lifetime of listening enjoyment.

Committed to Australian manufacturing, we use minimal waste processes to reduce our impact on the environment.
