

Company Introduction:

Orbita Technology Co., Ltd. is one of the largest manufacturers of smart door locks in China. Its products cover smart hotel locks, smart home locks, guest room safes, guest room refrigerators, and GRMS systems. Founded in 2004, we have a modern factory building of 46,000 square meters, production equipment and product testing laboratories supporting the entire industrial chain of the industry. It is a modern high-tech enterprise integrating R&D, production and sales. Product development and design are in accordance with European and American standards. The door lock has passed the world's most stringent US military standard BHMA 800,000 life test, European standard CE certification and European fire rated certificate. The production technology is advanced, and it is equipped with a team of professional and technical personnel with high-quality production and research and development. With "high quality, high standards and high requirements", Orbita is determined to surpass the quality of peers, and creates a high-quality "ORBITA" brand with safe and reliable quality and elegant design concepts. The company currently owns Guangdong Orbita Technology Co., Ltd., Shenzhen Orbita Technology Co., Ltd., and Hong Kong Orbita Technology Co., Ltd., and has direct sales offices in many countries in the Middle East, Southeast Asia, Europe, Africa and other overseas regions. More than 20,000 hotels in more than 120 countries around the world are using the products of Orbita, and the cooperative international hotel management companies include Starwood, Accor, Marriott, Inter Continental, Wyndham, Carlson, Kempinski, etc. "ORBITA" is also one of the few companies in China that has obtained the official certification of Opera hotel management system. "ORBITA" is also providing OEM services for many well-known European and American world-renowned peer companies. Strong research and development capabilities, strong production strength, strict quality management system, and timely and considerate service constitute the company's core competitiveness.
