

ARNSTADT KRISTALL / Company-Profile - 4

Arnstadt Kristall GmbH is a manufacturer of fine lead crystal and since its foundation in 1947 the company has stood for exceptional glass artistry. The products are distributed worldwide under the brand-name "ARNSTADT".

The particular success of the company is based on decades of experience and the unmatched craftsmanship of the glass makers, which has been successfully combined with modern manufacturing technology. The results are unique lead crystal glasses of premium quality, in remarkable designs. Labour intensive techniques such as grinding engraving and producing matt surfaces, gives Arnstadt lead crystal its exceptional charisma and clarity. Fine often hardly noticeable differences between the glasses are a sign that they have been hand made.

Arnstadt crystal is highly regarded by experts and collectors all over the world. Glass enthusiasts can find products and collections in over 50 countries. Come and have a look at our amazing lead crystal glass work.
