Guestroom

Guest room Items

Capitone

The 2016 Baal Catalogue begins with the latest and most exquisite products of Baal within the guest room area. Ranging from desk to the bed side and moving to the closets. The set below shows one of the design approaches of Baal.

A diverse within the combination of materials. Wood and leather create a decent contrast within the whole set. As for the leather, quilting has been implemented. The bin is covered with a flip top stainless steel cover, and a body of American walnut.

The metallic insert inside is washable. As for the jewelry box, oak wood and hinge flaps are used. The jewelry tray is metal padded and quilted like the tissue box.

Five in One

Drawer Stationery Insert

The drawer insert includes five compartments. The letterhead, envelopes, pencil slots. Then come the guest service directory folder and the stationery box.

Lion's Den

GSD | IRD | Square Tissue Box

The folders acquire flat folding, with a melange embroidery and a range of modern furniture color scheme. The square tissue box, in room dining, and guest service directory folder all carry the same tones and approaches.

Tribal Rituals

Tissue Box

The 2 tissue boxes show in detail the engraving works on the top then applied paint. The set contains certain sections and implementations of the same design, such as the base of the remote controller stand and the notepad stand. The wood used is American walnut padded with the latest Eco-friendly materials, and techniques.

BB Fences

GSD | Remote Control Holder | Note Pad Box

Along side the guest service directory comes the complimentary tissue box, remote controller holder, and the notepad holder. All the items merge and combine different materials within one entity.

BB Fences

IRD | Ice Bucket | Bill Folder | Shine Tray

A square ice bucket. The laser cut pattern is partially implemented on the bill folders and in room dining folder. The set comprises of brass metal oxidized and laser cut, then attached to the basic fabric beige material. As for the shoe shine tray, it is all padded with side handles and an engraved protected acrylic frame finish.

Contrast Concept

IRD | GSD | Drawer Insert

An integration of a more vibrant warm color rather than the basic earthy tones. The vibrant color is used with an organic hot-stamped pattern.

The in room dining folder is the key element within this set, since it includes a belt system. Stitching is another particular choice of design within this set.

Pearl

Note Pad | Jewelry Tray | Oval Bin

The name of this set clearly comes from its finishing. A pearly finish accompanied with high glass palisander wood. The note pad has a flap hinge, as well as a hidden pen slot. The bin has a different oval shape rather than a common rectangular one.

Metallic Finish

Magazine Bag | Jewelry Tray | Ice Bucket

An example of a magazine bag, having a more organic and curvy structure rather than the one prior to it. A contrast of color is part of the design scheme. The minimal bright blue creates a strong contrast for the bronze leather.

Stitching plays an important role within this set, with the ice bucket clearly showing the intricate stitch work. This Baal piece can also be found in some banqueting areas. The ice bucket includes a single wall from within.

Weaving Pattern

Amenity Box | Square Bin | Tea Box

This set consists of a wider range of products. Ranging from a conical bin, to a square tissue box. The design approach here weaved looking pattern hot stamped on certain products. Extra elements here are the metallic feet underneath most of the products.

Havana Concept

Laundry Basket | Coin Tray

A heavy and rich laundry basket complimented with a similar structural jewelry tray. The basket consists of

2 handles and a removable cover. As for the materials, the contrast of earthy tones gives the set a fresh feel.

Uniqueness

Conical Bin | Rectangular Tissue Box

The conical bin and the rectangular tissue box are enough to show the intricate patterns as well as the combination of 2 materials and colors that compliment each other making this set a quite rich set. The extra materials here are the gold plated metallic feet underneath both objects. A small additive but a great upgrade in class.

Jade & Creek

Laundry Organizer | Shoe Horn

The system holds 3 different compartments for laundry bags. A metallic clip holds a shoe horn. Beneath the laundry compartments is the laundry list section. The design of the whole entity relies mainly on the interior spacing and mood of the guest room.

Additives

Shoe Tree | Shoe Box & Tray

One of the latest additives into the guest room list of Baal. These customized shoe trees work accordingly to the interior essence of the guest room. They are custom made according to respective shoe sizes and genders. The shoe trays and box, they include cover bags .

Lion's Den II

Guestroom Blotter

Flat embroidered easy blotters. The main material of this set is the Flexo Fiber material that comes in between the leather top and the microfiber suede base. The concept here is to cover with style the desks and protect them with sensitive wood.

Dark & Ebony

Remote Control

The box is made of ebony timber, it has chic gold cigar box hinges with a magnetic list holder inside the flap.

Bathroom & Public Area

Bathroom & Public Area

Public Area Botany

The bathroom section exhibits the latest items designed and manufactured for this area. Humidity, water, hygiene, weight are some of the challenges when designing these adaptable products. Below is one of the leading designs

within bathroom furniture. An intricate geometric pattern laser cut and implemented on front faces. Bins, towel bins, tissue boxes, soap dispensers, and amenity trays are the most common items.

2016 catalogue

2016 catalogue

The Cut Giant

Public Area Bin

Size and design scheme wise, this item changes relatively to its neighbors. Larger than the normal bins, its size clearly indicates in location of usage. Dark raw steel laser cut over brass metal with a removable cover.

KS Concept

Square Tissue Box | Towel Tray

A set of 2, wood and metal combination. A mini towel tray with a square tissue box. Metallic feet are utilized within this set. Materials used are American walnut timber s/s grade 304

Michelle

Bathroom

A more complex set. Ranging from a square towel box, cotton box, soap dish to a laundry bag. An oriental pattern is implemented on the items. Dark wood with brass metal. Acrylic layering within items that hold direct skin contact products such as cotton buds, and a wet towel rest in the shape of a post.

Saray

Amenities Tray | Towel Tray | Q-tip Jar

An indispensable entity within a bathroom. This certain design holds a Q-tip jar, a bottle of water with a cup and a towel tray. They can also be combined with a tissue box. The metal has been hammered to give a certain richness and difference within the family. The same technique is used throughout the family that will later be shown. An acrylic insert\ division system is implemented within the Q-tip jar, making it easier to remove and rinse. A long tray once used vertically will be ideal for deep vanity areas where space is minimal.

Marble & Cu.

Amenities Tray

A much heavier and sturdier amenities tray. Marble, metal, and laser engravings have been implemented within the approach. The set's heaviness breaks the light and transparency mood of the bathroom.

Poly Set

Soap Dish | Towel Tray

Round Bin | Square Tissue Box

The main highlight within the bathroom section for this year was Baal's implementation of polyresin within the bathroom and creating a set made of out this material.

The set includes a bin, variable towel trays, and a square tissue box. White, brown, and blue are used. It may come in various finishings, ones below show a frosted finishing.

Saray II

Round Bin | Cotton Bud Jar | Soap Dish

Part of the rectangular amenity tray, here lies the continuation of the family. Hammered glossy stainless steel. The hammered approach blurs the reflection creating a whole new design concept within bathroom items. Here we also find acrylic inserts, especially in the cotton bud jar. This set belongs to the same family as the previous Saray, and both can be mixed and matched.

Straight Hammer

Square Tissue Box | Q Tip Jar

Sometimes round hammering as used on the Saray items may not be the perfect solution, in that case straight hammering is implemented. A complimentary set to the one before is the oxidized hammered brass set. Square tissue box, and a Q-tip jar are the main entities within this set.

New Blue Pedal Bin

Other than the bright blue used to contrast with the dark grey, the mechanism is relatively new. The pedal concept has been introduced. It has an invisible flap, soft close. The flap can also be wooden to add a certain flow to the bin. Some wood examples that can be used are oak, walnut, wangee.

KS Concept Amenities Box

Different than the amenity trays, here we find a very chic and fully wooden amenity box, taking the form of a drawer. The drawer itself protects the cardboard cover amenities' packages from humidity and water. As for the top, it can be a used as another level for many water proof items.

Food & Beverage

Food & Beverage

Simes

As elaborate and well thought of are the designs of the Baal guestroom items, this section exhibits the latest Food and Beverage Items of Baal. Items within this category range from serving trays, Espresso machine stands, to folders and more.

The Set comprises of a mini bar list holder, notepad with flap, a coffee tray, and finally an ice bucket, all falling within the same approach.

Origami

Folders

Throughout the years, Baal has excelled in folder design. The folders custom designed according to each brief and mood.

Materials vary as well as the paper binding mechanism with different finishings and many rich combinations.

Spring Menu Folders

Within the folder category falls the menu folder. Materials and techniques are endless, designs are countless. The main design element here is 4 color embroidery, leather spine and tie. These 3 shift from the basic earthy brown and beige color scheme to more vibrant tones.

SS Concept Afternoon Tea Snack Stand

A rather more contemporary and modern tea tier, shifting away from the typical ceramic tea tiers. Still adopting the round structure, but fictionalizing it in a more aesthetic manner. Stainless steel is used for weight and hygienic purposes. A ring handle as well as a rectangular are implemented with 5 rectangular stations. This item can be considered as one of the leading designs within the F&B culinerics this year.

Circular Stations

Kettle Station | Bottle Insert
Espresso Machine Stand

Similar to the Espresso machine tray, the station is specifically designed for an electrical kettle and its dock. Other than the kettle, we see different compartments, some for the tea cups, plates, as well as for water bottles.

Within the structure is a drawer with tea and sugar sachet divisions. The same structure has enough space to hold an espresso machine on the side. An extra element is the removable belt with metallic clips to hold down the wire.

Bright

Bread Basket | Tissue Box

The color of this bread basket is what highlights this item. A bright orange compared to the color tones and ranges seen before.

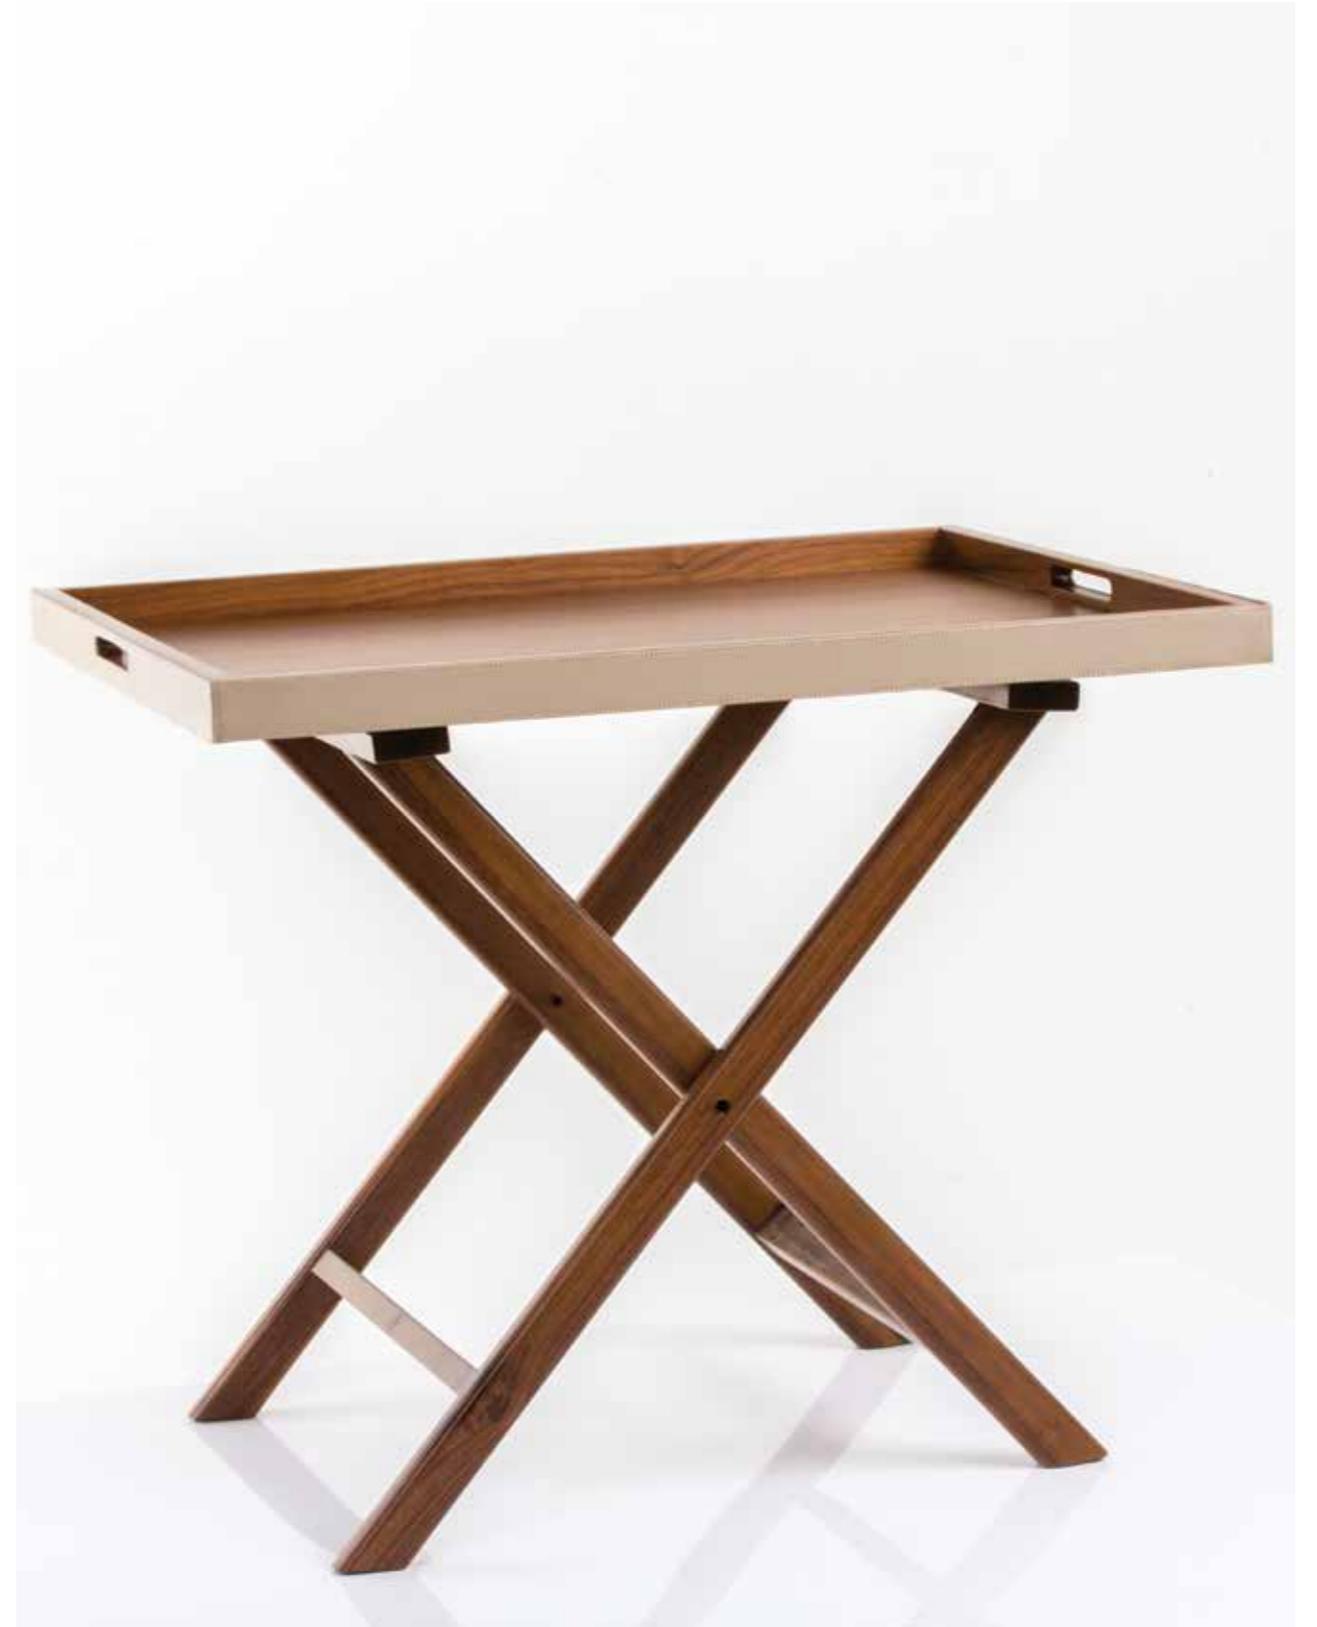

The set includes a complimentary tissue box. White stitches are used within the broad design scheme.

Jack

Serving Trays

Far bigger than the previous items, this set can be considered as one of the leading items of this year. 3 trays with different colors and materials to complement the wooden jack stand. The whole structure can withstand almost all F&B items on it.

Calligraphy

Ice Bucket | Tea box

From the most extravagant designs of this year. Calligraphic metal laser cuts, complemented with dark wood and contrasted with light beige genuine leather. The combination cooks up this very complex set of ice bucket, with the cover unit being a piece of the flap, the tea box, and The candy box.

Ebony Stripes

Tissue Box | Tea Sachet & Capsule Insert

As rich as the set before, this set explores different material combinations and functionalities. A tissue box and a sachet\capsule.

Glass cover, blind hot stamping, metallic feet are some of the additives of the set.

Raw

Bottle Holder | Ice Bucket | Serving Tray

A much rather complete set. Ranging from bottle holder to round ice bucket, rectangular minimalistic serving tray. In the same set we find a minimalistic round tissue serving tray.

Raw Unprocessed wood, leather, metal are all used within the rich design of this set.

The Pleasant Servant

Tea Sachet & Capsule Insert

Contrast of wood and white leather. Metallic handles are use for the drawer insert holding the sachets and the capsules. The top part is covered with glass to prevent it

from stains. As for the side, the dimensions are designed according to a specific espresso machine.

Stack Them

Tissue Box | Dispenser

The set is comprised of stackable elements. First the square tissue box that goes over the dispenser. Due to the ability of stacking them, less space is consumed and transportation is much easier

As for the lower stacked element, we find a square dispenser, usually found on banqueting rooms for left over wrapping papers.

Handles

Serving Trays

Like folders, Baal has no equal when it comes to trays and the vast designs it has contributed within this domain. Ranging from rectangular to round trays, and each having different functions. A tray is an indispensable unit within most sets.

A modern office desk with a glass top and dark frame. On the desk, there is a laptop, two glasses of water on coasters, a mouse, and a pair of glasses. The background features a window with white horizontal blinds. The text "Banqueting & Front Office" is overlaid on the right side of the image.

Banqueting & Front Office

Banqueting & Front Desk Items

Front Desk | Lobby

This Section tackles the latest Baal Products within the banqueting and front desk areas. Products ranging from magazine bags to blotters.

Materials, swatches, techniques vary according to the location and surrounding of each item placed.

Black Capitone

Hand Bag Rest | Magazine Holder

As for this set, the quilted design approach is applied with genuine box leather as the main material. The set includes a light hand bag rest with a complimentary magazine holder.

The Grey

Bottle Holder | Blotter | Glass & Pen Slots

A blotter that has more than one function. Other than a blotter for breakout rooms, the item can be used as an A4 notepad. The adjacent glass and bottle tray is removable. Both together give the set a broader functional essence.

Regent

Blotter | Name Stand | Candy Box | Coasters

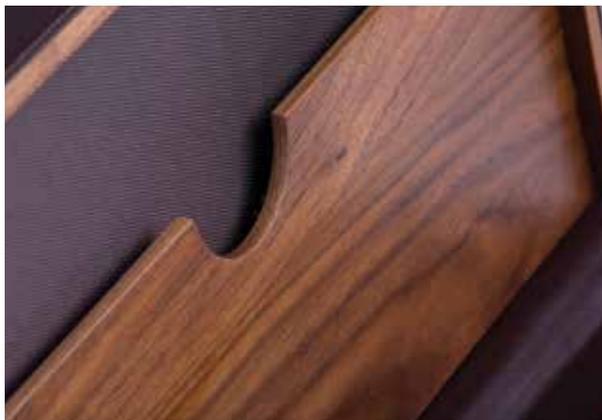

A Board room set. The detachable abilities give it a practical functionality. The set is composed of the detachable stationery box, the name stand and a candy jar.

Dark Stationery

Stationery Box

A fully functional stationery box designed for meeting rooms. The materials used for the box give the whole box a modern mood. Walnut wood, and leather.

Flame

Blotter | Stationery Tray | Tissue Box

Bedroom meeting room set with a pen input. The whole set can be used either on top or side. The set is variable, flexible, and totally completely practical.

The Heavy One

Blotter

Hard blotter with a heavy design. The base of the blotter is heavy and thicker than usual to give it a presence and a heavy stand on the front office.

The base is heavy and metallic providing the blotter with an anti-bending mechanism to prevent it from displacements.

The Dock

Phone Dock | Stationery Box

An item usually found on top of the desk. The item consists of a phone dock and the portable charger compartment underneath it.

Next to it is a stationery section with a removable cover. Beneath the cover is a studied division system for specific stationeries.

Signage

Front Office Caution Sign

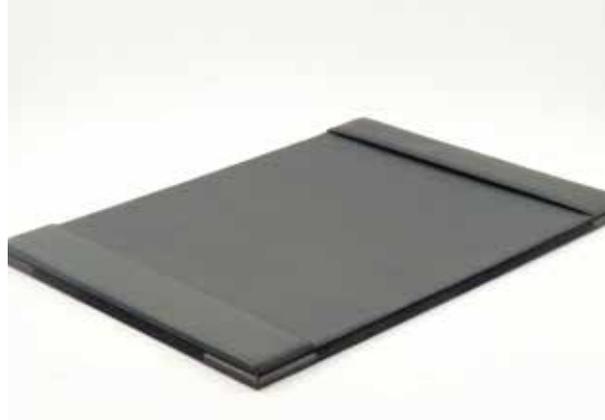

One of the most fundamental items found in front desks, the Wet floor sign is more flexible than it seems. Grade 304, made of stainless steel. It is light making it easier for transportation. The whole stand can be adjustable and designed to any height, as for the message within the acrylic stand can be changed and used for directional signages amongst other signages.

Desk Utilities

Front Desk Blotter | Check In Folder

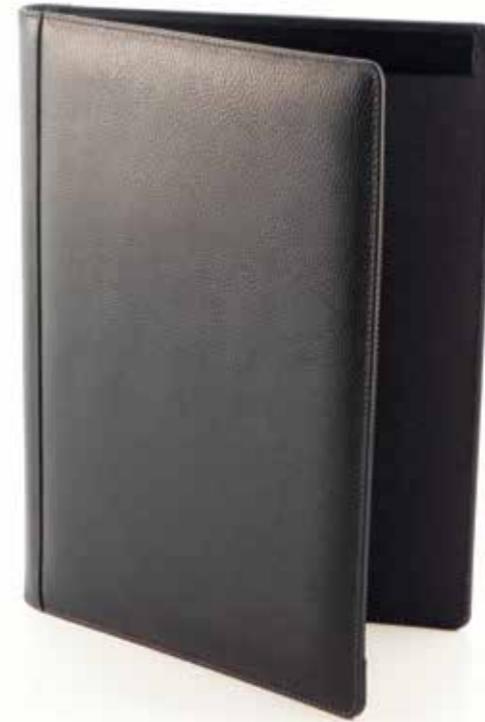

The first item is far from the conventional concept of check in folders. The item comes with protective edges and handles for the letterheads within. Heavier than most items, gives it a presence on the front desk.

The blotter is clearly a front desk blotter due to its weight, classiness, and sturdiness. It has a metallic rim edge, as for the top, fully grained brushed off leather is used.

Indispensables

Check In Folder | Money Tray

The section ends with the front office indispensables, a typical Baal check in folder, and with the set comes the money tray that comes with a magnetic clip.

Spa

The Stand

Brochure Rack

Brochure rack come in various sizes sitting on top of the counter and very useful for marketing. The color tone compliments the whole set, ranging from havan to dark orange tones. The additives are organic patterns cropped and hot stamped on a face.

The Identity Wave

Card Holder | Amenity Tray

The item here is one of the latest spa items. A consultation card holder with magnetic flap wood padded with leather. The colors are similar to the previous spa item. The spa amenity tray is steel padded with leather. The same organic pattern is hot stamped on the surface. The whole item is bent to take an elegant wavy shape making it easier to hold and more practical to use and transport.

Soft Container

Cotton Bud Jar

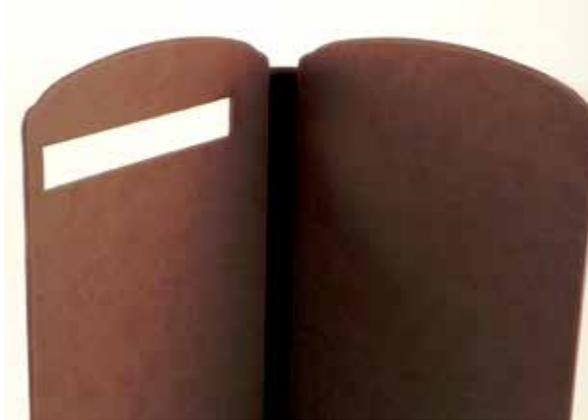

Cotton swab container s/s padded with leather. Like the previous items, this item contains a hot stamped face with a metallic cover. Stitching is another additive within the whole genre.

See Through

Check In Folder

Spa check in folder with an easy see through window. This helps the user in reading the title without the need to open the folder.

The Bouncer

Jewelry Tray | Do Not Disturb Sign

A key item within the spa, the do not disturb sign hangs elegantly on the door handle. Simplification is a key here without adding a lot of design elements to transmit the message faster and easier while keeping the aesthetic feel.

Spa jewelry tray metal padded between its base and the leather. Edges are twisted, and hot stamping is utilized on the inside face.

Organic

Tissue Box | Jewelry Tray

Labels are the most important indicators and differentiators amongst others. The first item is a square tissue box with the similar color tone and the label hot stamps on front. As for the second item, we have a jewelry tray with easy front access and simple division systems.
