NILO Spa Design, specialising in the creation of total concept and furnishing elements for spas, wellness centres, beauty centres and hotels, was created with the intention of proposing design solutions for all places where the wellness experience is total, at 360 degrees.

Thanks to the expertise of the Maletti group and its many years of collaboration with the best designers, NILO has always been able to offer its customers unique furnishing elements with a distinctive character, always ahead of the times.

In fact, NILO was the first company to turn to a designer for the design of a complete cabin, calling on architects of the calibre of Claudio Silvestrin in 2008, Elisa Giovannoni from 2010 to the present day, Alberto Apostoli from 2017 to the present day.

Proprio di design, tecnologia e innovazione parlerà la Presidente, presentando le ultime novità della sua Azienda, attraverso l'attenta ed esclusiva progettualità dei suoi Designer.

First and foremost, the Giovannoni design studio, which with the figure of **Elisa Giovannoni** - art director of the Maletti group - has introduced the concept of sustainability with the **Green Prestige cabin**. Through the use of noble materials such as wood, the sinuous lines of the bed and the other components of the collection evoke moments of relaxation and wellbeing, to be experienced in prestigious locations.

On the other hand, **Alberto Apostoli**, Wellness Creator Through Architecture, with his "Concept Eterea", in which design and technology are combined with multi-sensorial and emotionality for the first time in the world of wellness, innovates the concept of the massage cabin/suite, emancipating it from the world of furniture, delivering a mature space of coordinated and holistic design.

The innovative concept is based on the luminosity of the suspended elements and the materiality of the furnishing components, using the 5 natural elements of the Taoist philosophy.

But the product that best combines design technology and innovation is **HUB**, the world's only mobile washing station. Designed by **Studio Giovannoni Design** in collaboration with the brilliant

"SOCIETÀ" SOGGETTA AD ATTIVITÀ DI DIREZIONE E COORDINAMENTO DA PARTE DI FIN MALETTI SPA."
"COMPANY SUBJECT TO MANAGEMENT AND COORDINATION ACTIVITIES BY FIN MALETTI SPA."
"ENTREPRISE SOUMISE AUX ACTIVITÉS DE GESTION ET DE COORDINATION DE FIN MALETTI SPA."
"UNTERNEHMEN UNTERLIEGT MANAGEMENT- UND KOORDINIERUNGSAKTIVITÄTEN VON FIN MALETTI SPA."
"EMPRESA SUJETA A ACTIVIDADES DE GESTIÓN Y COORDINACIÓN POR FIN MALETTI SPA."
"EMPRESA SUJEITA A ATIVIDADES DE GESTÃO E COORDENAÇÃO DA FIN MALETTI SPA."

idea of **Rossano Ferretti** and produced by Maletti Group. A unique object, designed for Hotels, Spas and Real Estate in the luxury segment that desire exclusivity for their services.

HUB allows hair treatments to be delivered in complete privacy in one's own room, making the experience unique;

is a design item, which strengthens the positioning of the accommodation facility;

is a low investment, which pays for itself in terms of services provided and brand reputation;

it is an autonomous product, which does not require water or electrical connections during use, and therefore does not require structural changes to adapt the systems, as it is equipped with a water storage and disposal system.

A perfect item for a luxury hotel.

So, the one with the Grand Hotel Des Anglais at "Sanremo Exclusive" is an unmissable appointment to get to know the NILO company and its proposals, always functional for those working in the sector and in line with contemporary design and the needs of a society that looks to the highest levels of wellbeing, sustainability and exclusivity.

NILO is ready to amaze the refined audience of "Sanremo Exclusive", making a series of images flow on the backdrop of the elegant lounge that will excite the participants.
