Health Center Hotel Solution

by BIOCANNOVEA

WE UPGRADE WELLNESS TO HEALTHNESS

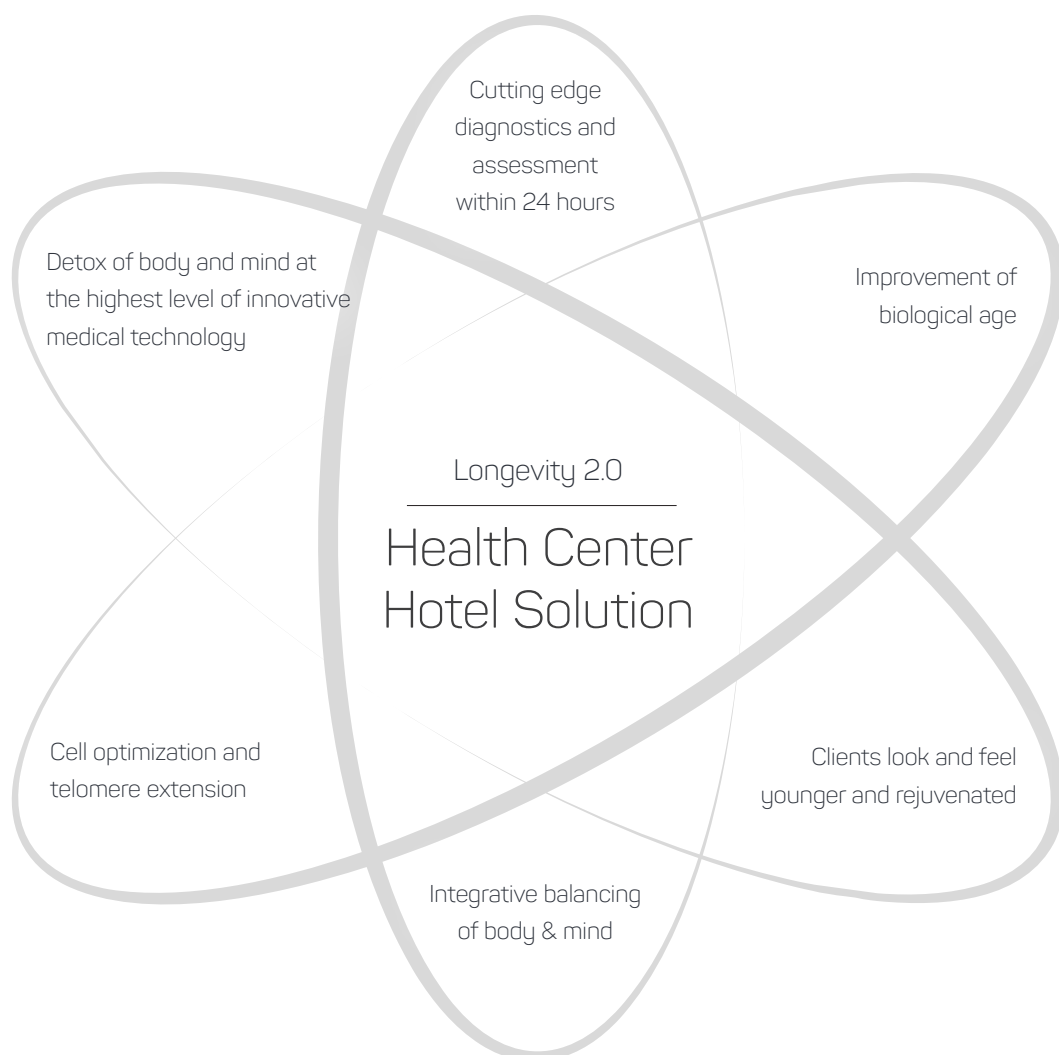

Longevity Health Center Hotel Solution  
OFFER YOUR GUESTS SOMETHING  
ABSOLUTELY PRICELESS: **HEALTH**

Our Longevity 2.0 Health Center Hotel Solution, combines modern medicine and innovative technology to an extent that is currently unparalleled in any facility worldwide.

Not only is longevity a current topic on the global marketplace, but it is also the absolute instrument 2.0 for a longer lifespan and a better quality of life. Guests in our retreats are viewed holistically and treated and cared for in an integrative way according to the principles of Mind-Body-Medicine, so that they leave the retreat with an increased sense of wellbeing, improved health and an optimized biological age.

**Mind-Body-Medicine is concerned with individual root cause therapy as opposed to the suppression of symptoms**

# LONGEVITY REFUGIUM

## THE CLINICAL LONGEVITY CONCEPT ON 4 LEVELS

- Inhouse assessment and diagnostics
- Therapy packages tailored to the assessment
- The immediate analysis of results including the determination of biological age after the completion of therapy
- A nutritional concept

### HEALTH ANGELS

We train your project staff to be Health Angels, so that they can offer guests trustworthy and professional support on the way towards perfect health.

---

## A COMPREHENSIVE LICENSE INCLUDES AN ALL- ROUND CAREFREE PACKAGE FOR YOUR COMPANY

The exclusivity of the Brand Longevity 2.0 Health Center Hotel Solution in your defined exclusive territory.

The complete implementation of the center – from planning to store design all the way to support during your launch.

- Training the whole team in our unique therapy and diagnostic methods, as well as drafting pre-made treatment protocols for your guests
- Training your team to become Longevity-Health experts
- Integrating your hotel into the international network of Longevity-Hotels
- Including your hotel in the marketing program of Longevity 2.0 Health Center Hotel Solution

# UPGRADE WELLNESS TO HEALTHNESS

Within a very short timeframe, guests achieve a qualitatively longer and healthier state of being, full of vitality and joy, as well as the regeneration of imbalances, such as stress or illness, through individualized medical retreats in adequate luxury hotel establishments. A synergy of holiday and health in one place.

The current state of health is assessed using high-tech immediate diagnostics during retreats of an individually determined length, lasting from two days to three weeks. The biological age is demonstrably improved, and bodily imbalances are treated through innovative methods of therapy to help guests achieve an absolute state of physical and mental coherence.

---

# EXCLUSIVE PRESTIGE FOR YOUR HOTEL

Occupancy rate optimization, especially during low season periods through increases in the number of high-quality guests in search of an innovative optimization of their health and the improvement of physical regeneration in luxurious hotel surroundings that do not have the feel of a medical facility. An image upgrade and improved international recognition can be achieved simultaneously with the implementation of our Longevity 2.0 Centre solution.

Revenue optimization through the offer of cutting edge and innovative therapy: Discerning international customers are looking for hospitality establishments in which they can improve the state of their health and optimize their biological age using the latest technological advancements. Our basic concept includes 80% of the therapeutic and diagnostic means we offer and can be implemented without a doctor.

---

# OFFER YOUR GUESTS THE UNIQUE GIFT OF LONGEVITY

A verified assessment of the biological state of health on a medical level Including subsequent therapy to improve it. Wellbeing and biological age are also optimized.

**Systematic, professionally pre-assessed retreats:**

<b>1 Day</b>	Express Reset
--------------	---------------

<b>2 Day</b>	Reset
--------------	-------

<b>4 Day</b>	Longevity Health & Anti-Aging Boost Retreat
--------------	---

<b>7 Day</b>	Longevity Retreat for the Body, Mind and Cells
--------------	--

<b>14 Day</b>	Longevity Retreatfor the Body, Mind and Cells
---------------	---

<b>7-21 Day</b>	Personalized Longevity Med 2.0 Retreat Individual therapy sessions
-----------------	---

## WHICH HOTEL ESTABLISHMENTS ARE OFFERED THE OPPORTUNITY TO INTEGRATE THIS CONCEPT:

We are exclusively looking to work with establishments in the luxury sector that can adequately represent, visualize and implement the concept of our Longevity-Centers to our standards and requirements.

In order to maintain the exclusivity of these innovative establishments, only one to two licenses will be issued per destination (city).

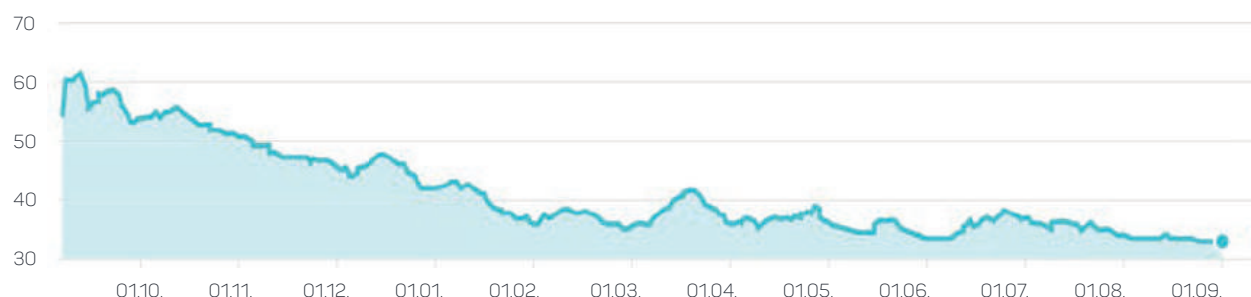

---

## A BRIEF OVERVIEW OF OUR DIAGNOSTICS AND ASSESSMENT

**Diagnostics** → Measuring Biological Age (Vitalmonitor)

This diagnostic method determines the current biological age on various levels, such as the heartrate, vessel pressure and muscle cells. It is possible to measure increasing success after just one week of integrative, holistic Longevity Therapy.

### BIOAGE

**Diagnostics** → Capillary blood analysis (finger prick)  
Diagnostics of blood cells, organ parameters, vitamins, oxidative stress

**Diagnostics** → Neurostress measurement of the vegetative nervous system

**Diagnostics** → Bioelectrical impedance analysis: Indication of current mitochondrial function and several other physical factors

**Diagnostics** → Measurement of the current biological age and physical condition to determine the intensity of the training program.

---

# AN OVERVIEW OF OUR THERAPIES

## THERAPIE - THE MOST INNOVATIVE COLD CHAMBER

Cryotherapy can achieve highly effective results in just four minutes at  $-110^{\circ}\text{C}$ .

- ✓ Improvement of mitochondrial respiration (cells)
- ✓ Strengthening the immune system
- ✓ Improving muscle cells
- ✓ Immediate anti-aging benefits
- ✓ Metabolic acceleration
- ✓ Significant mood elevation

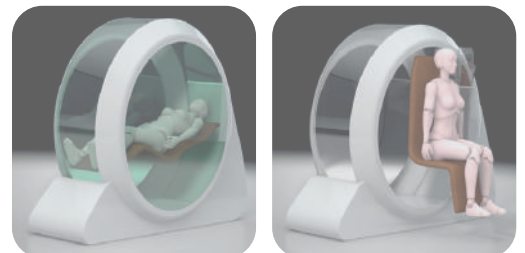

## THERAPY - IHHT THERAPY (ULTIMATE CELL REJUVENATION)

In cell training using the IHHT method, large (hyperox- and small (hypoxia) amounts of oxygen are alternately supplied. This leads to rehabilitation and regeneration of the body's own cells. Depleted, 'old' mitochondria are removed during the phase of hypoxia. New, healthy and physiologically 'younger' mitochondria develop in the cells at the same time. This leads to a natural anti-aging boost.

## THERAPY - HBOT THERAPY

Hyperbaric oxygenation is a therapy form, in which 100% medically pure oxygen is administered via inhalation under increased atmospheric pressure at defined intervals and lengths of time.

## THERAPY - OZONE THERAPY (RECTAL INSUFFLATION)

Ozone therapy can be used for the overall regeneration and improvement of vitality. This therapy is free of side effects and is administered for the following indications, among others:

- ✓ Eliminating pathological germs (viruses, bacteria, fungi)
- ✓ Long-term strengthening of the immune system
- ✓ Reduction or elimination of inflammation with multiple applications.

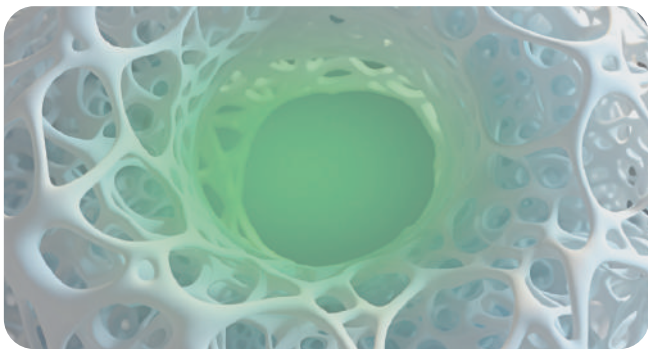

## NUTRITIONAL CONCEPT

Highly effective nutrition supplements based on proprietary Biocannovea micellar technology additionally support the successful attainment of holistic balance during the retreat, and help maintain the retreat results over the long-term.

## LONGEVITY MED CLINIC 2.0 UPGRADE (ONLY POSSIBLE UNDER MEDICAL SUPERVISION)

The Longevity Med Clinic 2.0 Upgrade includes a wider spectrum of whole blood analyses, as well as innovative invasive medical treatments.

- ✓ **HYPERBARIC OXYGENATION PERFUSION** - This is considered the most intelligent form of dialysis to date. The entire organism is cleansed of all toxins, environmental pollutants, heavy metals and pathogens in the course of a treatment.
- ✓ **HIGHLY EFFICIENT, INTEGRATIVE IV-PROTOCOLS FOR CELL OPTIMIZATION**
- ✓ **INTRAVENOUS OZONE PROTOCOLS**

# Who we are

Biocannovea is an international market leader in the field of holistic health center development and implementation, with a focus on the immune system and cell optimization, as well as research on longevity and biohacking.

Together with our innovative partner company, the Aqua Meds Group, we employ a synergistic approach to science, medicine and revolutionary medical technology at the highest level.
