

# ARGGER POSEIDON

## DESIGN

Understand your ideas.  
Exceptional performance inspires more..

## SOLVE

Seek the best solution.  
Draw bridge to the future projects.

## SERVICE

Provide all-around services.  
Make your ideas come into reality.

## ARGGER ***Poseidon***

Poseidon water ripple stainless steel sheet is a kind of punched decorative panel with mirror finishes whose surface texture looks like water ripples. Its light reflection character makes it bring unique visual experience, which is related to water ripple colors and wave heights. Besides, it has excellent corrosion resistance and excellent mechanical properties. It is a novel decorative material with unique style. Recently, it is widely used in both the interior and exterior decoration of commercial or residential buildings.

The irregular pattern impact combines with mirror finishes to deepen the sense of spatial hierarchy.
